STATEMENT OF WORK

Member Onboarding App

Client: Pinecrest Credit Union ("Pinecrest")

Vendor: Lotus Dev Studio ("Vendor")

Client contact: Jordan Lee, Digital Channels Lead (vendors@pinecrestcu.example)

Version 2

1. Purpose

Pinecrest wants new members to open an account from their phone in under ten minutes, without visiting a branch.

2. Fees

2.1 The total fixed fee for this engagement is $50,000 (USD).

2.2 Fees are billed by milestone as set out in Section 5.

3. Scope

3.1 Native-feel mobile app for iOS and Android built with React Native.

3.2 Account opening flow: personal details, identity verification, funding the first deposit.

3.3 Integration with Pinecrest's core banking system for real-time account creation.

3.4 Admin console for the member services team to review flagged applications.

3.5 Out of scope: online banking features beyond account opening, card issuing, marketing website.

4. Team and responsibilities

4.1 Vendor provides a project lead, a UX designer, two engineers and a QA engineer.

4.2 Pinecrest provides a product owner who attends a weekly review and answers questions within two business days.

4.3 Pinecrest provides sandbox access to its core banking system by the start of Week 9.

5. Payment schedule

The project starts on the Monday after signature (Week 1).

5.1 M1 — Discovery and UX design. Weeks 1–3. Fee: $9,000.

5.2 M2 — Onboarding flow and ID verification. Weeks 4–8. Fee: $16,000.

5.3 M3 — Core banking integration. Weeks 9–13. Fee: $18,000.

5.4 M4 — Launch and 30-day support. Weeks 14–18. Fee: $7,000.

6. Acceptance criteria

6.1 M1 is accepted when (a) Pinecrest approves a clickable prototype of the full onboarding flow, and (b) an accessibility review against WCAG 2.1 AA shows no open blockers.

6.2 M2 is accepted when (a) a new member can open an account end to end on iOS and Android in the staging environment, and (b) the ID verification vendor is integrated, with a fallback to manual review when automatic verification fails.

6.3 M3 is accepted when (a) member accounts sync with the core banking system in real time, and (b) the API meets the performance requirement in Section 7.2.
6.4 M4 is accepted when (a) the app is approved and live in both app stores, and (b) 30 days pass after launch with no open severity-1 issues.

7. Performance and security
7.1 Member data is encrypted in transit and at rest.
7.2 The API shall provide reasonable performance under normal load.

8. Expenses

8.1 Travel and third-party fees, including ID verification vendor fees, are billed at cost and are separate from the milestone fees in Section 5.

9. Change requests

9.1 Changes to scope are agreed in writing and may change fees and dates.

10. Term

10.1 This SOW ends when M4 is accepted, unless ended earlier under the master services agreement.
